1. **Payment Search by Batch**
2. **Advanced Payment Search**

Payment Search by Batch:

The purpose of this report is to allow you to quickly find a payment that would have occurred in the past. If you belong to multiple clients and a multi-shop organization and have access to view remittance details for all your shops, you can choose to filter this by selecting **Client Name** and **Vendor Name**.

1. For particular client / vendor data – Select **Client** from the **Client** drop down menu. Similarly select the **Vendor** from **Vendor** List and perform the search operation.
2. You can click on **EFT / Check #** within the **Remittance Summary** table to view remittance details corresponding to the **EFT / Check#**.

The screenshot displays the ONE INC web application interface for 'ELECTRONIC PAYMENTS AND REMITTANCES'. On the left is a navigation menu with options: Home, Payments (expanded to show 'By Batch' and 'Advanced Search'), Users, Vendors, Payment Method, MyAccount (expanded to show 'Change Password' and 'User Profile'), and Help. At the bottom of the form are 'SEARCH' and 'RESET' buttons.

Advanced Payment Search:

Depending on the number of payments you receive, or the payment details you have on hand to search with, you may need to use the **Advanced Payment Search**. This search includes all of the search criteria in the **Basic Search**, plus the ability to sort by **Customer Name** and **Amount**.

The screenshot shows the 'Advanced Search' interface in the ONE INC system. The page title is 'ELECTRONIC PAYMENTS AND REMITTANCES'.
